Microbiology and Immunology Casebook (J.T. Barrett), 45:390
Molecular Basis of Virus Evolution (edited by A. Gibbs, C.H. Calisher and F. Garcia-Arenal), 45:388
Molecular Pathogenesis of Surgical Infections (edited by T. Wadstrom, I.A. Holder and G. Kronvall), 44:75
Oral Cephalosporins, vol 47, Antibiotics and Chemotherapy (edited by R.C. Moellering), 45:389
PCR, Protocols for Diagnosis of Human and Animal Virus Diseases (edited by Y. Becker and G. Darai), 45:389
Population Genetics of Bacteria (edited by S. Baumberg *et al.*) 44:231
Practical Food Microbiology (edited by D. Roberts, W. Hooper and M. Greenwood), 45:388
Principles and Practice of Clinical Virology, 3rd edn (J.K. Zuckerman), 44:232
Prions, Prions, Prions. Current Topics in Microbiology and Immunology (edited by S.B. Prusiner), 45:388
Problems in Medical Microbiology (J. Holton *et al.*), 45:390
Short Protocols in Molecular Biology, 3rd edn (edited by F. Ausubel *et al.*), 45:513
Textbook of Diagnostic Microbiology (edited by C.R. Mahon and G. Manuselia), 45:391
The Microbiology and Epidemiology of Infection for Health Science Students (P. Meers, J. Sedgwick and M. Worsley), 44:231
Transacting Functions of Human Retroviruses. Current Topics in Microbiology and Immunology (edited by I.S.Y. Chen *et al.*), 45:512
50 Years of Antimicrobials: Past Perspectives and Future Trends (P. Hunter, G. Darby and N. Russell), 45:390
Bordetella spp.
B. pertussis, detection in nasopharyngeal aspirates, 44:261
B. pertussis, vaccines, 44:233
pathogenicity, 44:233
virulence, 44:233
Brain lesions, differential diagnosis, 45:472
Bronchoalveolar lavage fluid
cytomegalovirus in AIDS patients, 45:149
P. carinii in, 45:146
ventilator-associated infection, 45:226
Brucella spp.
B. melitensis, cytosoluble proteins, 45:206
B. melitensis, monoclonal antibodies, 45:206
B. melitensis, species-specific marker, 45:200
DNA polymorphism, 45:200
Burkholderia spp.
B. cepacia, antibiotic susceptibility, 44:203
B. cepacia, characterisation, 44:203
B. cepacia, in cystic fibrosis, 44:203
B. cepacia, ecological issues, 45:395
B. cepacia, multiresistance, 45:395
B. cepacia, taxonomy, 45:395
B. pseudomallei, biochemical characteristics, 45:408

Candida spp.
adhesion to buccal epithelial cells, 45:179
C. albicans, and HIV infection, 44:311
C. albicans, immune response, 44:277
C. albicans, proteinase production, 44:311
C. albicans, rapid identification by PCR, 44:390
C. albicans, susceptibility of diabetic rat model, 44:277
C. glabrata, rapid identification by PCR, 44:390
C. krusei, rapid identification by PCR, 44:390
C. parapsilosis, fingerprinting analysis, 45:173
C. parapsilosis, rapid identification by PCR, 44:390
inhibition of growth by *S. maltophilia*, 45:380
non-*albicans*, epidemiology, 44:399
non-*albicans*, identification, 44:399
non-*albicans*, taxonomy, 44:399
Capsule, of *S. pneumoniae*, 45:505
Catalase, from *M. ulcerans*, 45:383
Catheter lavage, ventilator-associated infection, 45:226
Cell culture
adherence of *A. caviae*, 45:445
cytotoxicity of Shiga-like toxin, 45:331
intracellular growth of *L. monocytogenes*, 44:418
pathogenicity of *L. monocytogenes*, 45:323
survival of *Salmonella* Enteritidis, 45:463
Central nervous system, cryptococcal infections, 45:376
Cerebrospinal fluid, detection of *T. gondii* DNA, 45:472
Children
adherence of *E. coli* to epithelia, 44:362
detection of *U. urealyticum* in preterm infants, 45:27
diarrhoea associated with *V. metschnikovii*, 45:494
infections, non-sporing anaerobic rods, 45:21
investigation of sexual abuse, 45:313
tuberculosis in, 44:7
Chlamydia trachomatis
detection by EIA, 44:147
immune response, 45:1
monoclonal antibodies, 45:1
Cholera toxin, 45:31
Chondroitin sulphate, utilisation by *S. intermedius*, 44:372, 44:381
Ciprofloxacin, susceptibility of *M. avium*, 44:227
Clarithromycin, susceptibility of *M. avium*, 44:227
Clindamycin, and *S. pneumoniae* capsule expression, 45:505
Clostridia
C. difficile, antigenic determinants of toxin B, 44:464
C. difficile, cell surface properties, 44:115
C. difficile, effect of biotin on toxin production, 44:111
C. difficile, environmental distribution, 45:133
C. difficile, haemagglutination, 44:115
C. difficile, hydrophobicity, 44:115
C. difficile, surface charge, 44:115
C. sordellii, enterotoxin-negative, cytotoxin-positive strain 44:60
Coagulase test, 44:496
Collagen
binding by anaerobes, 45:338
binding by *H. pylori*, 45:433
Computing, issues for the 21st century, 45:79
Contact lens wear, 45:127
Coomassie Blue staining, 45:6
Cowpox virus, 45:157
Coxiella burnetii, characteristics, 44:77
Cryptococcus neoformans in HIV infection, 45:376
infections of CNS, 45:376
Culture media
chemically defined, for IFDO, 45:10
effect of biotin on *C. difficile* toxin production, 44:111
effect on survival of *S. dysenteriae* in macrophages, 44:99
selective for *N. gonorrhoeae*, 44:253
Cystic fibrosis, 44:203, 45:110, 45:294
Cysts, *P. carinii*, 45:146
Cytokines, modulation by growth hormone, 45:40
Cytomegalovirus infection in AIDS patients, 45:149
Cytotoxins, of *C. sordellii*, 44:60

Dengue virus
in Australia, 45:159
immune response to dengue 2 virus, 45:138
Diabetes, rat model, 44:277
Diarrhoea
associated with *V. metschnikovii*, 45:494
categorisation of *E. coli*, 45:353
characterisation of enteropathogenic *E. coli*, 44:438
detection of O157 VTEC, 44:267, 44:273
global relevance of disease, 44:155
P. alcalifaciens infection, 45:459
Distance learning, 45:79
DNA
analysis of groups A, C and G streptococci, 45:278
characterisation of *C. sordellii*, 44:60
detection of Fc receptor genes from *S. aureus*, 45:507
detection of Fc receptor genes from streptococci, 45:507
fingerprinting analysis of *P. aeruginosa*, 45:359
gene probes for enteropathogenic *E. coli*, 44:438
genomic lineage of *Salmonella* Gallinarum, 45:413
HPV, in recurrent nasal papillomas, 45:162
identification of *Bartonella* 16S rDNA sequences, 45:192
investigation of non-*albicans Candida* species, 44:399
IS elements in *M. tuberculosis*, 45:236
IS elements in salmonellae, 45:236
molecular diagnosis of tuberculosis, 44:2
molecular typing of *Acinetobacter* spp., 44:482
molecular typing of *Salmonella* Enteritidis, 44:52
molecular typing of *Y. enterocolitica*, 45:48
polymorphism of *Brucella* spp., 45:200
RAPD investigation of *E. aerogenes* outbreak, 44:89

RAPD-ALFA analysis of *A. baumannii*, 44:185
rapid differentiation of *Prevotella* spp. by PCR-RFLP, 44:41
rapid identification of pathogenic fungi by PCR, 44:390
strain-specific variation in *dnaJ* gene of mycobacteria, 44:332
T. gondii, detection in CSF, 45:472

Ecological issues, and *B. cepacia*, 45:395
Electron microscopy
immune, 44:151
invasiveness of *Y. enterocolitica*, 44:285
scanning, 44:285
survival of *S. dysenteriae* in macrophages, 44:99
transmission, 44:285
typing of enteroviruses, 44:151
Electrophoresis
pulsed-field gel, 44:52, 44:179, 45:48
see also SDS-PAGE
Electrostatic charge, of *C. difficile*, 44:115
ELISA
detection of group A streptococcal antibody, 45:214
detection of verocytotoxins, 44:273
determination of *Klebsiella* O antigens, 44:44
for *E. coli* fimbrial antibody, 44:453
serodiagnosis of *S. epidermidis* infection, 44:355
Endotracheal aspirates
detection of *U. urealyticum*, 45:27
quantifying bacteria, 45:153
Enterobacter aerogenes, outbreak investigations by RAPD, 44:89
Enterotoxins
of *S. aureus*, 44:171
of *V. cholerae*, 45:31, 45:35
Enterovirus, typing by immune electron microscopy, 44:151
Enzyme immunoassay
Genie HIV-1/2 kit, 44:223
rapid detection of PCR products, 45:76
verification assays for *C. trachomatis*, 44:147
see also ELISA
Epidemiology
acinetobacter infections in Hong Kong, 44:340
child sexual abuse, 45:313
cowpox virus, 45:157
diarrhoea associated with *V. metschnikovii*, 45:494
group A streptococci, 45:285
herpes simplex virus, 45:3
M. tuberculosis, 44:2, 44:7, 45:236
